St. Augustine, FL 32086

We have been TableAds® distributors since April 2009. After many years of working in the advertising business in many different mediums making other people wealthy, and after careful review and consideration of the business opportunity, we made the decision to become TableAds® distributors in order to control our own financial destiny. It is often said hindsight is 20/20 and that is certainly true when looking at the success of our business today. TableAds® has given us the opportunity and guidance to successfully build a very successful business. As with any business, you reap what you sow, but we are very pleased with the success we have enjoyed. If you are considering an opportunity to become a TableAds® distributor that has been presented to you, we would encourage you to embrace it with all that you have. It is one of a very limited number of business opportunities that afford the entrepreneur the opportunity to thrive in today's advertising sales market.

We often tell the story of how we were looking for a business model in the advertising industry that would give us an opportunity to promote affordable advertising that is effective but more importantly one that offers more than just buying or selling an ad. The TableAds® business opportunity does that in many ways. We have the opportunity to bring communities together through this unique advertising medium. The restaurants we work with are typically very successful and as a result they are very open to an opportunity to support their local business community. The business community recognizes the success of the restaurant and in turn appreciates the willingness of the restaurant to allow them to become partners in promoting their business. It is truly a win-win scenario. We have a long list of very happy customers and have made many friends and long term business acquaintances along the way.

GEH has worked hard through the years to learn what works and what does not work and this is the value that they offer to their distributors. They have worked hard to master the manufacturing and delivery process that enable our company to be successful. And they work hard looking out for their partners or distributors. The president of the company will always be available to you and at the ready to lend his support and guidance along the way. Everyone at the GEH home office is always at the ready to assist you in any way. In addition, all of the distributors are encouraged to communicate with each other to learn and grow every step of the way.

The initial capital investment is nominal in contrast to other opportunities and the rewards are only limited by the amount of effort you are willing to make. If you are willing to work hard and smart, you will prosper as we have. If you want to build a business that is truly a pleasure to be a part of, where you are in control of your own future, this is the opportunity you are looking for.

We are both available any time to further discuss any questions you may have and welcome you to contact us directly.

Allison and Michael Bennett
